School of Earth and Environmental Sciences Newsletter

From the Head of School

In other news, we are proud to host the inaugural Dorothy Hill Women in Earth Sciences Symposium on 15-16 November. This symposium will bring together leading women in the Earth Sciences in both academia and industry with early career researchers and students looking to study Earth Sciences.

Calling all scientists - new opportunities to get involved

1. Do you want to hear about research on a global scale and new advances across the Earth Sciences?
2. Would you like to join us for a powerful two days of learning and networking with top women in Earth Sciences.

Dorothy Hill Women in Earth Sciences Symposium

Eligible applicants to the Dorothy Hill Women in Earth Sciences Symposium will be offered complimentary registration for the event. Applications close 1 November.

Student recruitment spotlight

New recruitment videos

We’ve produced a student recruitment video about our Bachelor of Science – Earth Sciences (Honours) and a new video about our Bachelor of Science – Earth Sciences (Advanced) to help more students find out about choosing between UQ’s Bachelor of Science degrees. Watch it now.

River health solutions in China a focus for UQ students

A UQ Bachelor of Science student has joined an international team of researchers to help China take a significant step towards improving the health of its rivers. The team is part of the Healthy Rivers China project led by the Northern College of Henry Street.

UQ student’s fire research sparks international award

A UQ PhD student has won an international award for UQ student’s fire research. The award is for work in Australia to detect and map forest fires with synthetic aperture radar and its potential for global fire monitoring.

Kakadu find confirms earliest Australian occupation

Professor Jamie Shulmeister is co-author of a Nature study which has demonstrated human occupation of northern Australia by 65,000 years ago.

Nature study which has demonstrated human occupation of northern Australia by 65,000 years ago.

Diversity in Women in Earth Sciences Symposium

We are proud to host the inaugural Diversity in Women in Earth Sciences Symposium on 15-16 November. This symposium will bring together leading women in the Earth Sciences in both academia and industry with early career researchers and students looking to study Earth Sciences.
